CO-FOUNDER AND CTO

- May 2021 - Jul 2022

LHP SERVICES

Founded LHP Services with the intention to serve the LHPilots community with a greater range of services. Developed a membership system for the pilots, provided a range of services to ensure the lean and swift flow of the EB-2 Visa Consultation services offered, and currently optimizes company growth through analytics and consumer-centric strategies.

CO-FOUNDER

- Jan 2021 - Current

LHPILOTS

Founded LHPilots as a community of European pilots in the post-pandemic scenario to unite the professionals, facilitate training and deliver job offers. Created a pilot platform for mutual contact, exclusive access to Computer Based Training (CBTs), and hiring opportunities offered by airlines.

CO-FOUNDER AND DEVELOPER

- Mar 2020 - Feb 2021

DELIVERTÉ

Developed Deliverté from scratch. Designed it to make travels more efficient and to allow products to be taken with moving travelers, who would receive their fee for the items. Assembled the product mock-up and validation, designed the UX and the UI, developed the client and server codes, built a CI/CD base, completed the App and Play Store internal accounts, successfully deployed the production app, and integrated new updates. Deliverté was frozen for a year and development is being restarted in January 2022.

SOFTWARE ENGINEER

- Feb 2020 - Dec 2020

ELDORADO RESEARCH INSTITUTE

Built a diverse range of solutions for different external companies as a developer and software consultant. Developed user portals for partner NGOs, websites for smaller projects, a PWA for a startup, a project architecture for a bank app, and Alexa apps for larger companies.

COMPUTER ENGINEER, SOFTWARE DEVELOPER

EXPERIENCE (CONTINUED)

JUNIOR SOFTWARE ENGINEER

• Aug 2018 - Feb 2020

ELDORADO RESEARCH INSTITUTE

Developed an Android application with chat, Push to Talk, radio, task management, and workday features for Motorola. Developed the latest stages of the chat with the user profile picture, a new Live Location feature using Google Maps APIs and a UI revamp. Had crucial participation in the migration for the compilation to x64 architectures. Implemented the interface and functionalities for the new app branch which would handle workday and tasks management.

SOFTWARE ENGINEER INTERN

• Jul 2018 - Aug 2018

MOTOROLA

Responsible for the client-side of a pilot Android app developed in association with the internal Motorola Tools team to support another working team of Motorola.
